Language

- English
- Nepali
- Hindi

Education

- **2079 BS – Currently Studying**
NAGARJUNA COLLEGE OF IT
Bachelor in Information Management (BIM)

Projects

- **Food Ordering App – MERN Stack | GitHub**
 - Developed a full-stack food ordering application using the MERN stack with user authentication, menu management, and order tracking. Focused on building a smooth user experience with clean UI and REST API integration.
- **Movie Ticket Booking App – MERN Stack | GitHub**
 - Built a responsive movie ticket booking system with seat selection, booking functionality, and an admin dashboard for managing movies and schedules. Ensured efficient backend integration and structured data flow.
- **E-commerce Platform – MERN Stack | GitHub**
 - Created a modern e-commerce platform with product browsing, wishlist, cart, and order management features. Implemented authentication and scalable backend APIs for smooth performance.
